ELSEVIER

Volume 73, Numbers 1–3, January 1998

Journal of
Materials
Processing
Technology

Contents

The contact pressure distribution in flat rolling of wire 1
B. Carlsson

A variable force binder for a draw press 7
A.P. Cherrill, S. Zhang, K.B. Ousterhout

Microstructure dependence of the creep behavior of a Zn–Al based alloy 18
Y.H. Zhu

Fatigue induced phase transformation in extruded Zn–Al based alloy 25
Y.H. Zhu, J. Torres

Integrated automatic optimal design of manufacturing systems 30
N.K. Jha, P. Jha

Diamond turning of silicon substrates in ductile-regime 42
T.P. Leung, W.B. Lee, X.M. Lu

Effect of texture components on plastic anisotropy and formability of aluminium alloy sheets 49
J. Hu, K. Ikeda, T. Murakami

Fatigue limits of shot-peened metals 57
S. Wang, Y. Li, M. Yao, R. Wang

Compressive residual stress introduced by shot peening 64
S. Wang, Y. Li, M. Yao, R. Wang

Atom probe and field ion microscope investigation of the negative creep mechanism in nickel-base superalloy 74
D.G. Ren

Effect of a fiber coating on the fabrication of fiber reinforced metal-matrix composites 78
W. Yu-Qing, Z. Ben-Liam

The compensation of geometrical errors on forming grinding 82
P.-L. Tso, S.-Y. Yang

In-process control of blank holder force in axi-symmetric deep drawing with degressive gas springs 89
L. Gunnarsson, N. Asnafi, E. Schedin

An optimum-curved die profile for the hot forward rod extrusion process 97
A.S. Wifi, M.N. Shatla, A. Abdel-Hamid

Processing of an experimental aluminum–lithium alloy for controlled microstructure 108
V.K. Jain, K.V. Jata, R.J. Rioja, J.T. Morgan, A.K. Hopkins

Deformation characteristics of Ti–24Al–14Nb–3V–0.5Mo alloy during hot compression 119
C. Huang, J.K.L. Lai, C.S. Lee

On the influence of process variables on the thermal conditions and properties of high pressure die-cast magnesium alloys 125
N.A. El-Mahallawy, M.A. Taha, E. Pokora, F. Klein

Metal–matrix composites fabricated by pressure-assisted infiltration of loose ceramic powder 139
M.A. Taha, N.A. El-Mahallawy

The effects of gas composition on the CO_2 laser cutting of mild steel 147
S.-L. Chen

In situ preparation of TiB_2 reinforced Al based composites 160
S. Lakshmi, L. Lu, M. Gupta

An experimental study of the chip flow of chamfered main cutting edge tools 167
C.-S. Chang, K.-H. Fuh

Elsevier Science S.A.

An experimental investigation of rectangular pocket milling with abrasive water jet 179
S. Paul, A.M. Hoogstrate, C.A. van Luttervelt, H.J.J. Kals

Analytical and experimental modelling of the abrasive water jet cutting of ductile materials 189
S. Paul, A.M. Hoogstrate, C.A. van Luttervelt, H.J.J. Kals

Energy partitioning in elasto-plastic impact by sharp abrasive particles in the abrasive water jet machining of brittle materials 200
S. Paul, A.M. Hoogstrate, C.A. van Luttervelt, H.J.J. Kals

Analytical modelling of the total depth of cut in the abrasive water jet machining of polycrystalline brittle material . . . 206
S. Paul, A.M. Hoogstrate, C.A. van Luttervelt, H.J.J. Kals

A study of the effect of the process variables in unsymmetrical single-hole and multi-hole extrusion processes 213
P. Ulysse, R.E. Johnson

Near net-shape forming of ceramics by absorbing dewax with fibrous absorbers 226
T. Sato, T. Besshi

An integrated approach to determining the sequence of machining operations for prismatic parts with interacting features 234
A.C. Lin, S.-Y. Lin, D. Diganta, W.F. Lu

Effect of gate shape and forging temperature on the mechanical properties in the injection forging process of semi-solid aluminum material 251
C.G. Kang, J.S. Choi

Electric field modification during superplastic deformation of 15 vol% SiCp/LY12 Al composite 264
L. Miaoquan, C. Yanyun, C. Dengjun

Effect of process parameters on the densification of 2124 Al–20 vol.% SiCp composites fabricated by explosive compaction 268
K. Sivakumar, T. Balakrishna Bhat, P. Ramakrishnan

Determination of the plastic anisotropy r in sheet metal using automatic tensile test equipment 276
J. Danckert, K.B. Nielsen

Steady-state finite-element analysis of cold forward extrusion 281
B.P.P.A. Gouveia, J.M.C. Rodrigues, P.A.F. Martins

A filling analysis of the forging process of semi-solid aluminum materials considering solidification phenomena 289
C.G. Kang, J.S. Choi, D.W. Kang
